**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 8, 9, 12 –16, 19, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Turner et al. (US Patent Number 5792700).

3. Turner et al. teach a method of producing a doped semiconductor substrate, comprising of doping a surface of the substrate (col. 1 lines 56 – 62), depositing amorphous or polycrystalline silicon on the surface by LPCVD at 500 – 600 °C (col. 1 lines 63 – 64, col. 2 lines 38 – 44), performing a heat treatment at least 600 °C to produce an epitaxial layer of 20 to 40 nm and a buried doping (col. 1 line 65 – col. 2 line 7, & col. 2 lines 56 – 67).

4. Claims 2 to 7, 10, 11, 17, and 18 are objected to as being dependent upon rejected claims, but would be allowable if rewritten in independent form.

***Remarks***

5. Applicant's arguments filed on May 5, 2003 have been fully considered but they are not persuasive. Applicant contends that the as-deposited arsenic on the polysilicon layer of the Turner et al. reference does not result in a doped polysilicon layer. That position is traversed. Arsenic by inherency of its electronegativity is a dopant, which is

well recognized in the practice of the art (col. 2 lines 28 – 37, col. 4 lines 19 – 25, & col. 4 lines 49 - 55). <sup>and col. 2, lines 17-20.</sup> **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
